## Rules for Spares

1. It is the responsibility of the curler to inform his/her skip if he/she will not be able to play on any particular day. Give as much advance notice as necessary to give the spare co-ordinator time to get a replacement.
2. The Skip in turn will call the spare captain requesting a spare for the curler who will not be curling that day.
3. The spare captain will do their best to arrange for a spare to fill the vacant position.
4. The spare captain will try as best as he/she can to equalize turns for the spares.
5. The spare should ensure to pay his/her \$5.00 fee to the spare captain.
6. It is the responsibility of the spare captain to ensure that the money is collected and turned over to the curling financial person.
7. A spare can only be used to play in the vacant position or in a lower one.
